

What Is the Homeowner Portal?

The Homeowner Portal is an online platform designed to keep you informed and connected throughout your homebuying journey. Here, you'll find everything you need to know about your new Anthem home — from construction updates and documents to service requests and maintenance tips — all in one convenient place.

When Will You Get Access?

You'll receive an email invitation to set up your account approximately one day after your purchase conditions have been waived and the second deposit has been made.

How to Access Your Portal

Simply visit: www.homeinformationpackages.com and log in using your provided credentials.

Access on the Go

Stay connected anytime, anywhere by downloading the Homeowner Central app — available on both the App Store and Google Play.

The app gives you the same access and functionality as the web portal, allowing you to:

- View your construction timeline and progress photos
- Access documents and warranty information
- Receive instant update notifications
- Submit and track service requests

Who Has Access?

Every Anthem homeowner who is listed on the Purchase Agreement will receive access to their own personalized portal. If your home is later sold to a third party, access to your portal will not transfer to the new owner.

Stay Notified

You'll receive email notifications whenever new documents or timeline updates are added to your portal. Each notification includes a direct link to the updated page — making it easy to stay on top of every change.
